

This section shows how to Remove and Re-install your cluster

All Ground Wires

To Re-install, put back together and thread on nuts just a few threads.

CHANGING TIME DISPLAY FROM 24hr to 12hr
(This info is courtesy of Bill Linkletter)

The procedure to access the menu is as such:

- 1/ Press and **hold** the black selector button while turning the ignition on. The display will show UNIT, **release** the selector button.
- 2/ When UNIT is displayed, press and **hold** the selector button, when the factory setting option (24hr) is flashing, **release** the selector button.
- 4/ To change the value simply press the selector button **briefly** and **release**, the next value (12hr) will be flashing.
- 5/ To select the flashing value on the display screen, press and **hold** the selector button, the value will be excepted and the display screen will show the UNIT menu.
- 6/ Turn the Key OFF.
